

WADYS NEWS *60th Anniversary Edition*

60 Years in business, celebrated in style

At the Barns Hotel on Friday, May 10, Wadys celebrated 60 years of business. Guests included Bedford Mayor Dave Hodgson MBE, retired staff, current staff, customers and suppliers. The company was founded in 1959 by John Wady. His son Doug has been managing director since 1997.

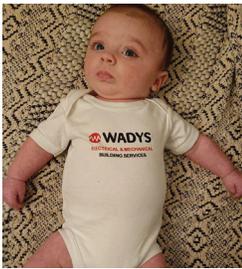

Doug Wady said: *“We are proud of our Bedford heritage and our great staff, many of whom live in Bedfordshire. A lot has changed over 60 years but one thing that has remained the same is our quality and trying our very best to keep our customers happy.”*

“Everyone said they enjoyed the day, particularly the John Bunyan boat trips on the River Ouse.” We look forward to many more happy years in Bedford.

STAFF NEWS

BABY BOOM! Apprentices of the future we hope! There must be something in tea at Wadys, the last few months saw 5 new borns to the Wady Staff. We obviously don't keep them busy enough!! Congratulations to the proud parents.

BEDFORD HOSPITAL

We have been working at Bedford Hospital for over 25 years & have just finished 2 more projects. Between August & November 2018 we carried out a refurbishment of one floor of the old Weller Wing (now Cauldwell Centre) for Ashe Construction. The new unit provides Primary & Urgent Care unit & opened on time in December.

Because we like a challenge we also carried out a refurbishment of the A&E department for David Knott & Sons. This started in Dec 2018 & finished in May 2019. Everyone knows how busy A&E departments are so it is a credit to the whole team that it went without any hickups.

EVG INSTALLATION

Wadys now a supply and install electric vehicle charging points for both domestic and commercial clients. Wadys are registered with the Office for Low Emission Vehicles (OLEV), which means that we are authorised to install EV charging points to domestic and commercial customers under the governments grant scheme. Under the Workplace Charging Scheme, the government contribution is limited to the 75% of purchase and installation costs, up to a maximum of £500 for each socket, up to a maximum of 20 across all sites for each applicant.

Domestic EV Charging

Workplace EV Charging

Public EV Charging

Charge Point Testing

"SMART EV CHARGING SOLUTIONS AND OTHER OPTIONS ARE ALSO AVAILABLE"

PARK PLACE PLAZA

This recently completed project is part of the regeneration scheme in the heart of Stevenage town centre which comprised of 202 Studio, 1 bedroom and 2 bedroom residential apartments. The existing building was completely stripped back & extended by Ashe Construction.
